

### DAAD Co-funded Heidelberg Alumni International National Meeting (HAIN) 2015, New Delhi, India

Heidelberg Alumni International (HAI) is the central alumni initiative of Heidelberg University – the worldwide network for all former and current students, researchers, administrative and teaching staff. HAI was founded in 1996 within the International Relations Office. The focus was on the international alumni work. As one of the first alumni initiatives in Germany, HAI set standards in many areas and realised innovative projects. Since 2010 HAI is part of the Rector's Office and now in charge of the national and professional alumni work.

Heidelberg Alumni Indien (HAIN) is the alumni initiative for all alumni of Heidelberg University who live and work in India and neighbouring countries. Those who have spent time as a student, researcher, professor or university employee in Heidelberg qualify to join HAIN.

The goal of HAIN is to establish and promote academic, scientific, cultural and also social exchanges in the South Asia region, to keep the alumni updated on developments and
